

Meet Simas – our new CFD Specialist, HVAC/R Application Engineer

WELCOME TO THE **FABRICAIR TEAM**

SIMAS KUPČINSKAS
CFD SPECIALIST, HVAC/R, APPLICATION ENGINEER

Yesterday we welcomed Simas Kupčinskas, who will be joining our Engineering team in Alytus, LT. Simas will play a key role in supporting our customers' air dispersion projects with CFD analyses, incl. simulations, analyses and verifying as well as visualizing results. His CFD expertise is something we look forward to putting to good use for our customers.

2nd March 2018

Simas is 29 years old and a native of Alytus, Lithuania. He holds a bachelor degree from Vilnius Gediminas Technical University (VGTU), topped with a M.Sc. in Civil Engineering from the renowned Technical University of Denmark (DTU). As part of his academics, Simas has been working successfully in building technologies. His Master research involved CFD analysis, describing Liquid Coupled Heat Exchangers.
