

## Taut Endcap

Installation Video

FabricAir has released a new and improved EndCap. The FabricAir Taut EndCap will provide a smooth endcap regardless if the system is on or off. In certain applications the visual appearance of the FabricAir System is very important, hence this improved EndCap. This Taut EndCap will be available for diameters between [12"] to [40"]. This Taut EndCap will require a quick install of a small plastic strip.
