solutions.

A fabric-based solution that prioritizes occupants' health and comfort

Health and comfort are essential in public facilities. FabricAir contributes to these attributes by elevating the indoor air quality with its fabric-based air distribution solutions. From fabric ducts to ceiling diffusers, our products can fit the needs of any application.

EVEN AIR DISTRIBUTION

- Evenly distributes air throughout the facility.

HIGH INDOOR AIR QUALITY

- Creates a perfect and draft-free environment for all occupants.

VIRTUALLY NOISELESS

- Does not create additional unpleasant sounds.

LONG LIFESPAN

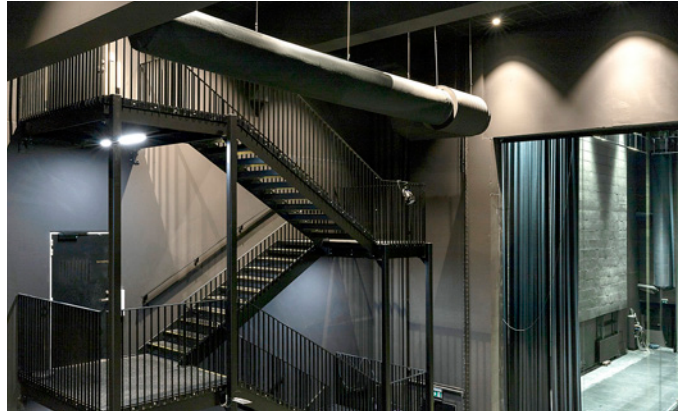

- Proven durability for decades to come.

CLEANROOM CERTIFIED

- Our fabric is rated for cleanrooms and associated controlled environments.

AESTHETIC SOLUTION

- A variety of duct profiles and standard colors and custom printing compliment any setting.
